(57) **CLAIM**

The ornamental design for a centric relation self registering full denture oral appliance for direct mounting on laboratory articulator, substantially as shown and described.

DESCRIPTION

FIG. 1 is a top, left-side perspective view of a centric relation self registering full denture oral appliance for direct mounting on laboratory articulator, assembled on dental casts.

FIG. 2 is a bottom, right-side perspective view of the complete centric relation self registering full denture oral appliance for direct mounting on laboratory articulator, assembled on dental casts.

FIG. 3 is a top, left-side perspective view of the complete centric relation self registering full denture oral appliance for direct mounting on laboratory articulator.

FIG. 4 a bottom, right-side perspective view of the complete centric relation self registering full denture oral appliance for direct mounting on laboratory articulator.

FIG. 5 is a top-side view thereof;

FIG. 6 is a bottom-side view thereof;

FIG. 7 is a right-side view thereof;

FIG. 8 is a left-side view thereof;

FIG. 9 is a front-side view thereof;

FIG. 10 is a rear-side view thereof;

FIG. 11 is a top, left-side perspective view of the upper member of centric relation self registering full denture oral appliance for direct mounting on laboratory articulator with the lower member removed for ease of illustration.

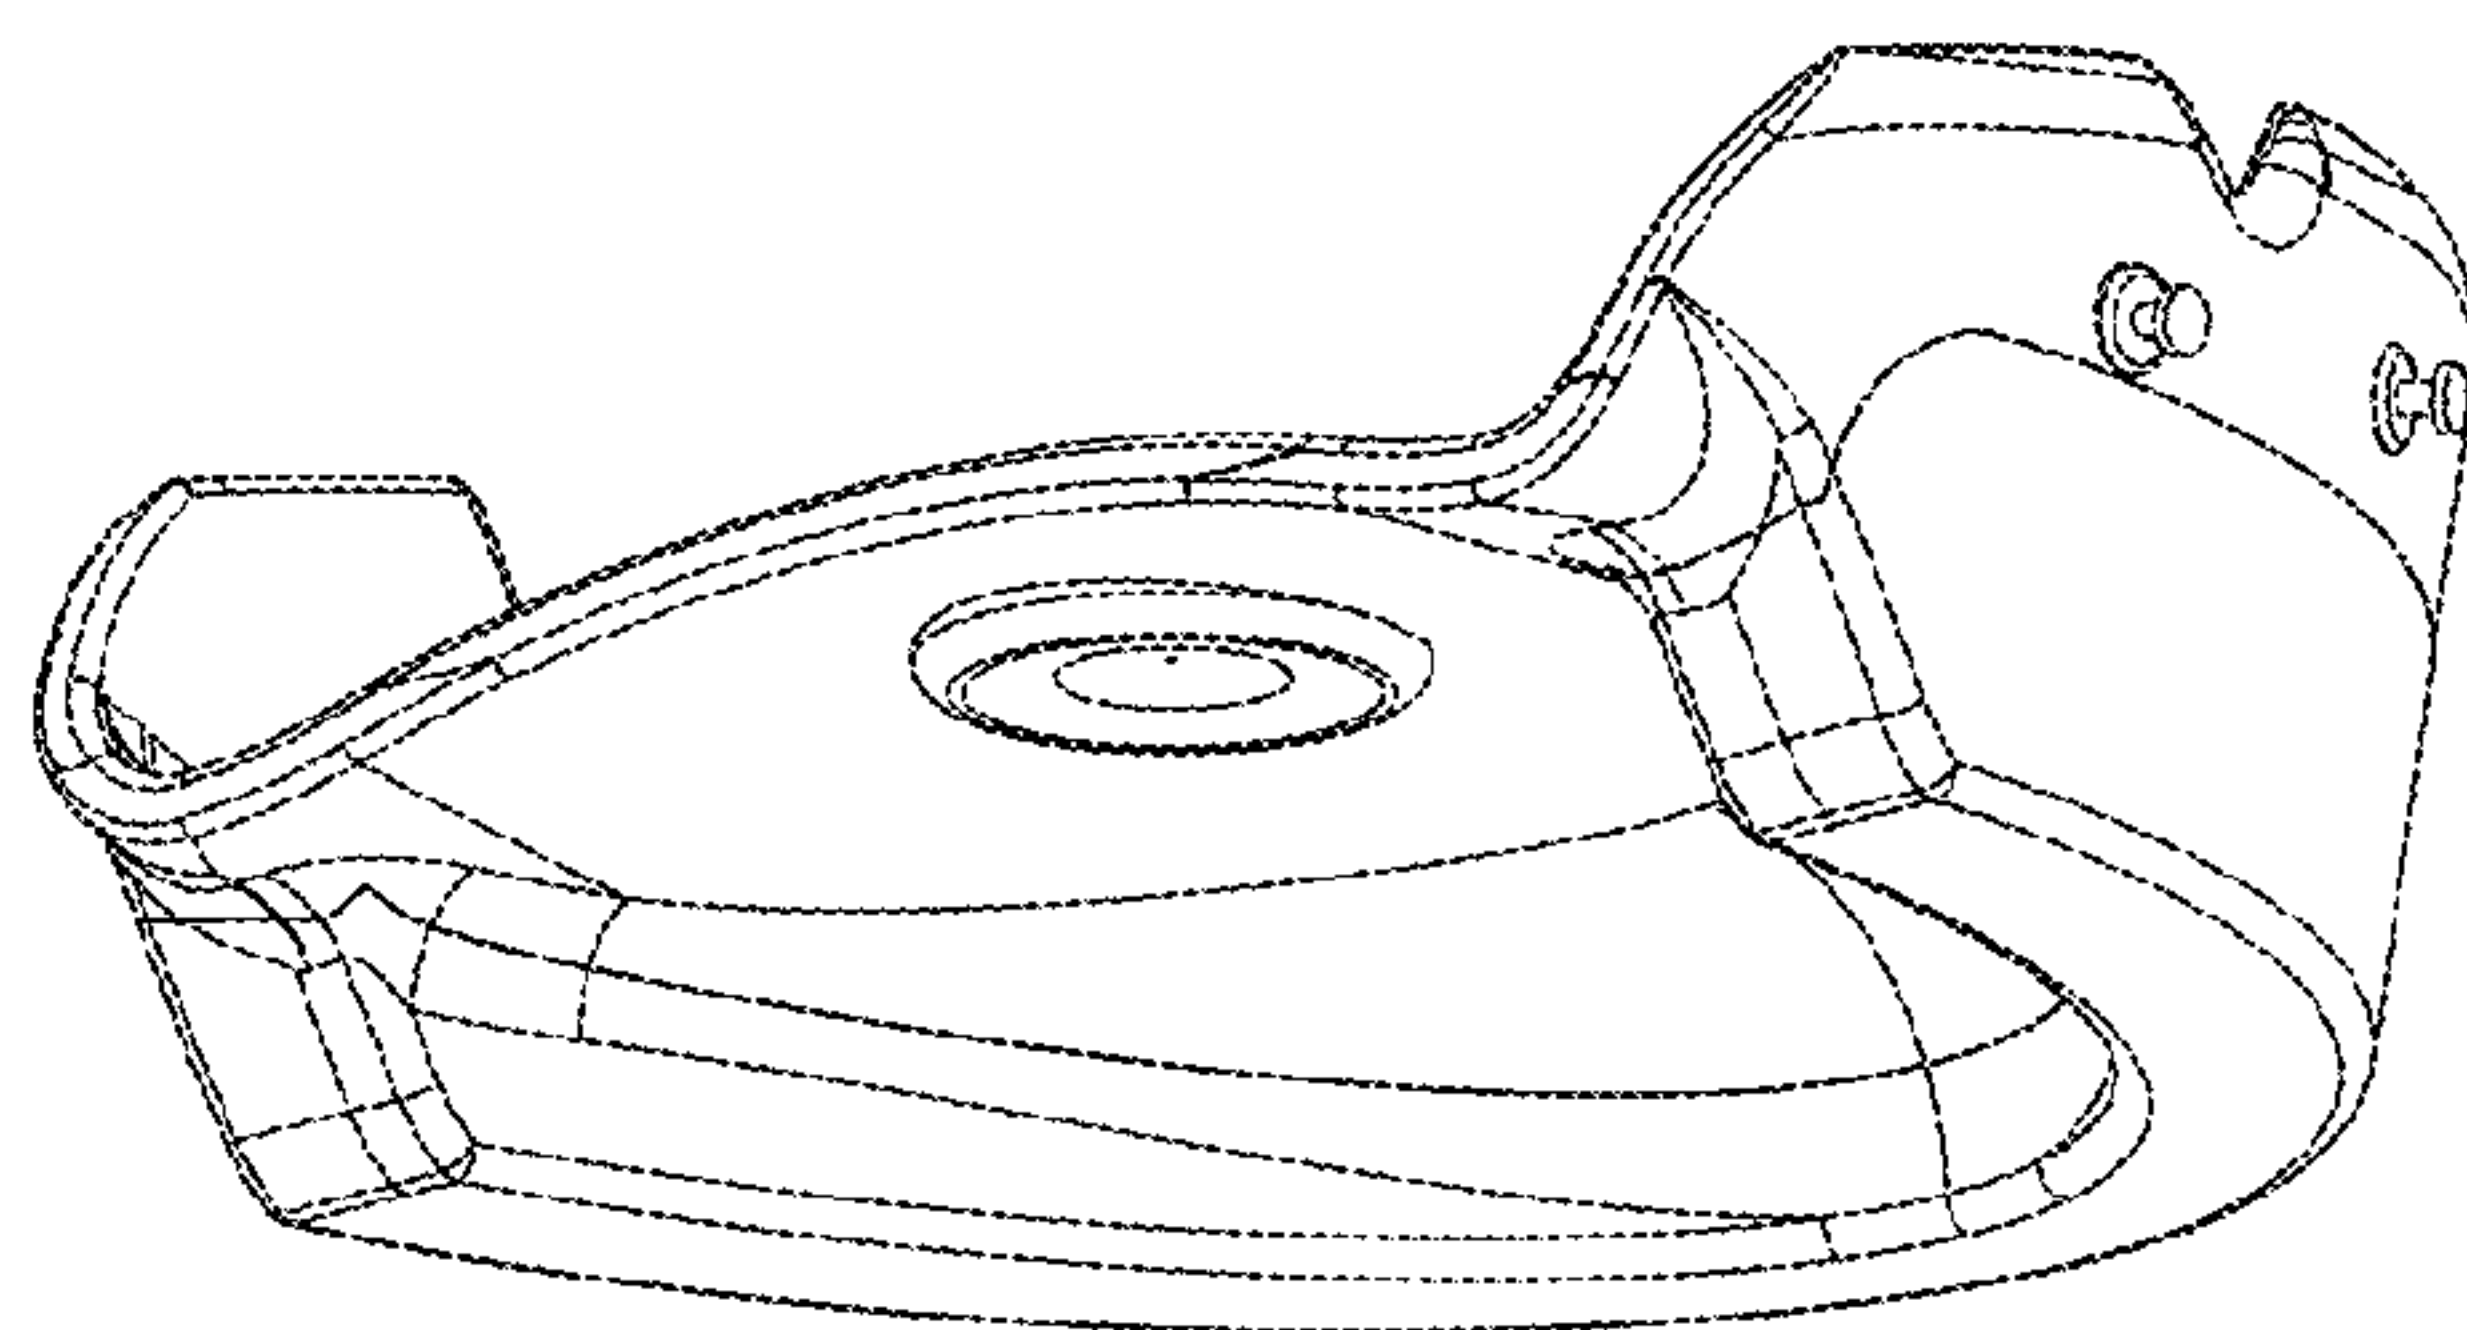

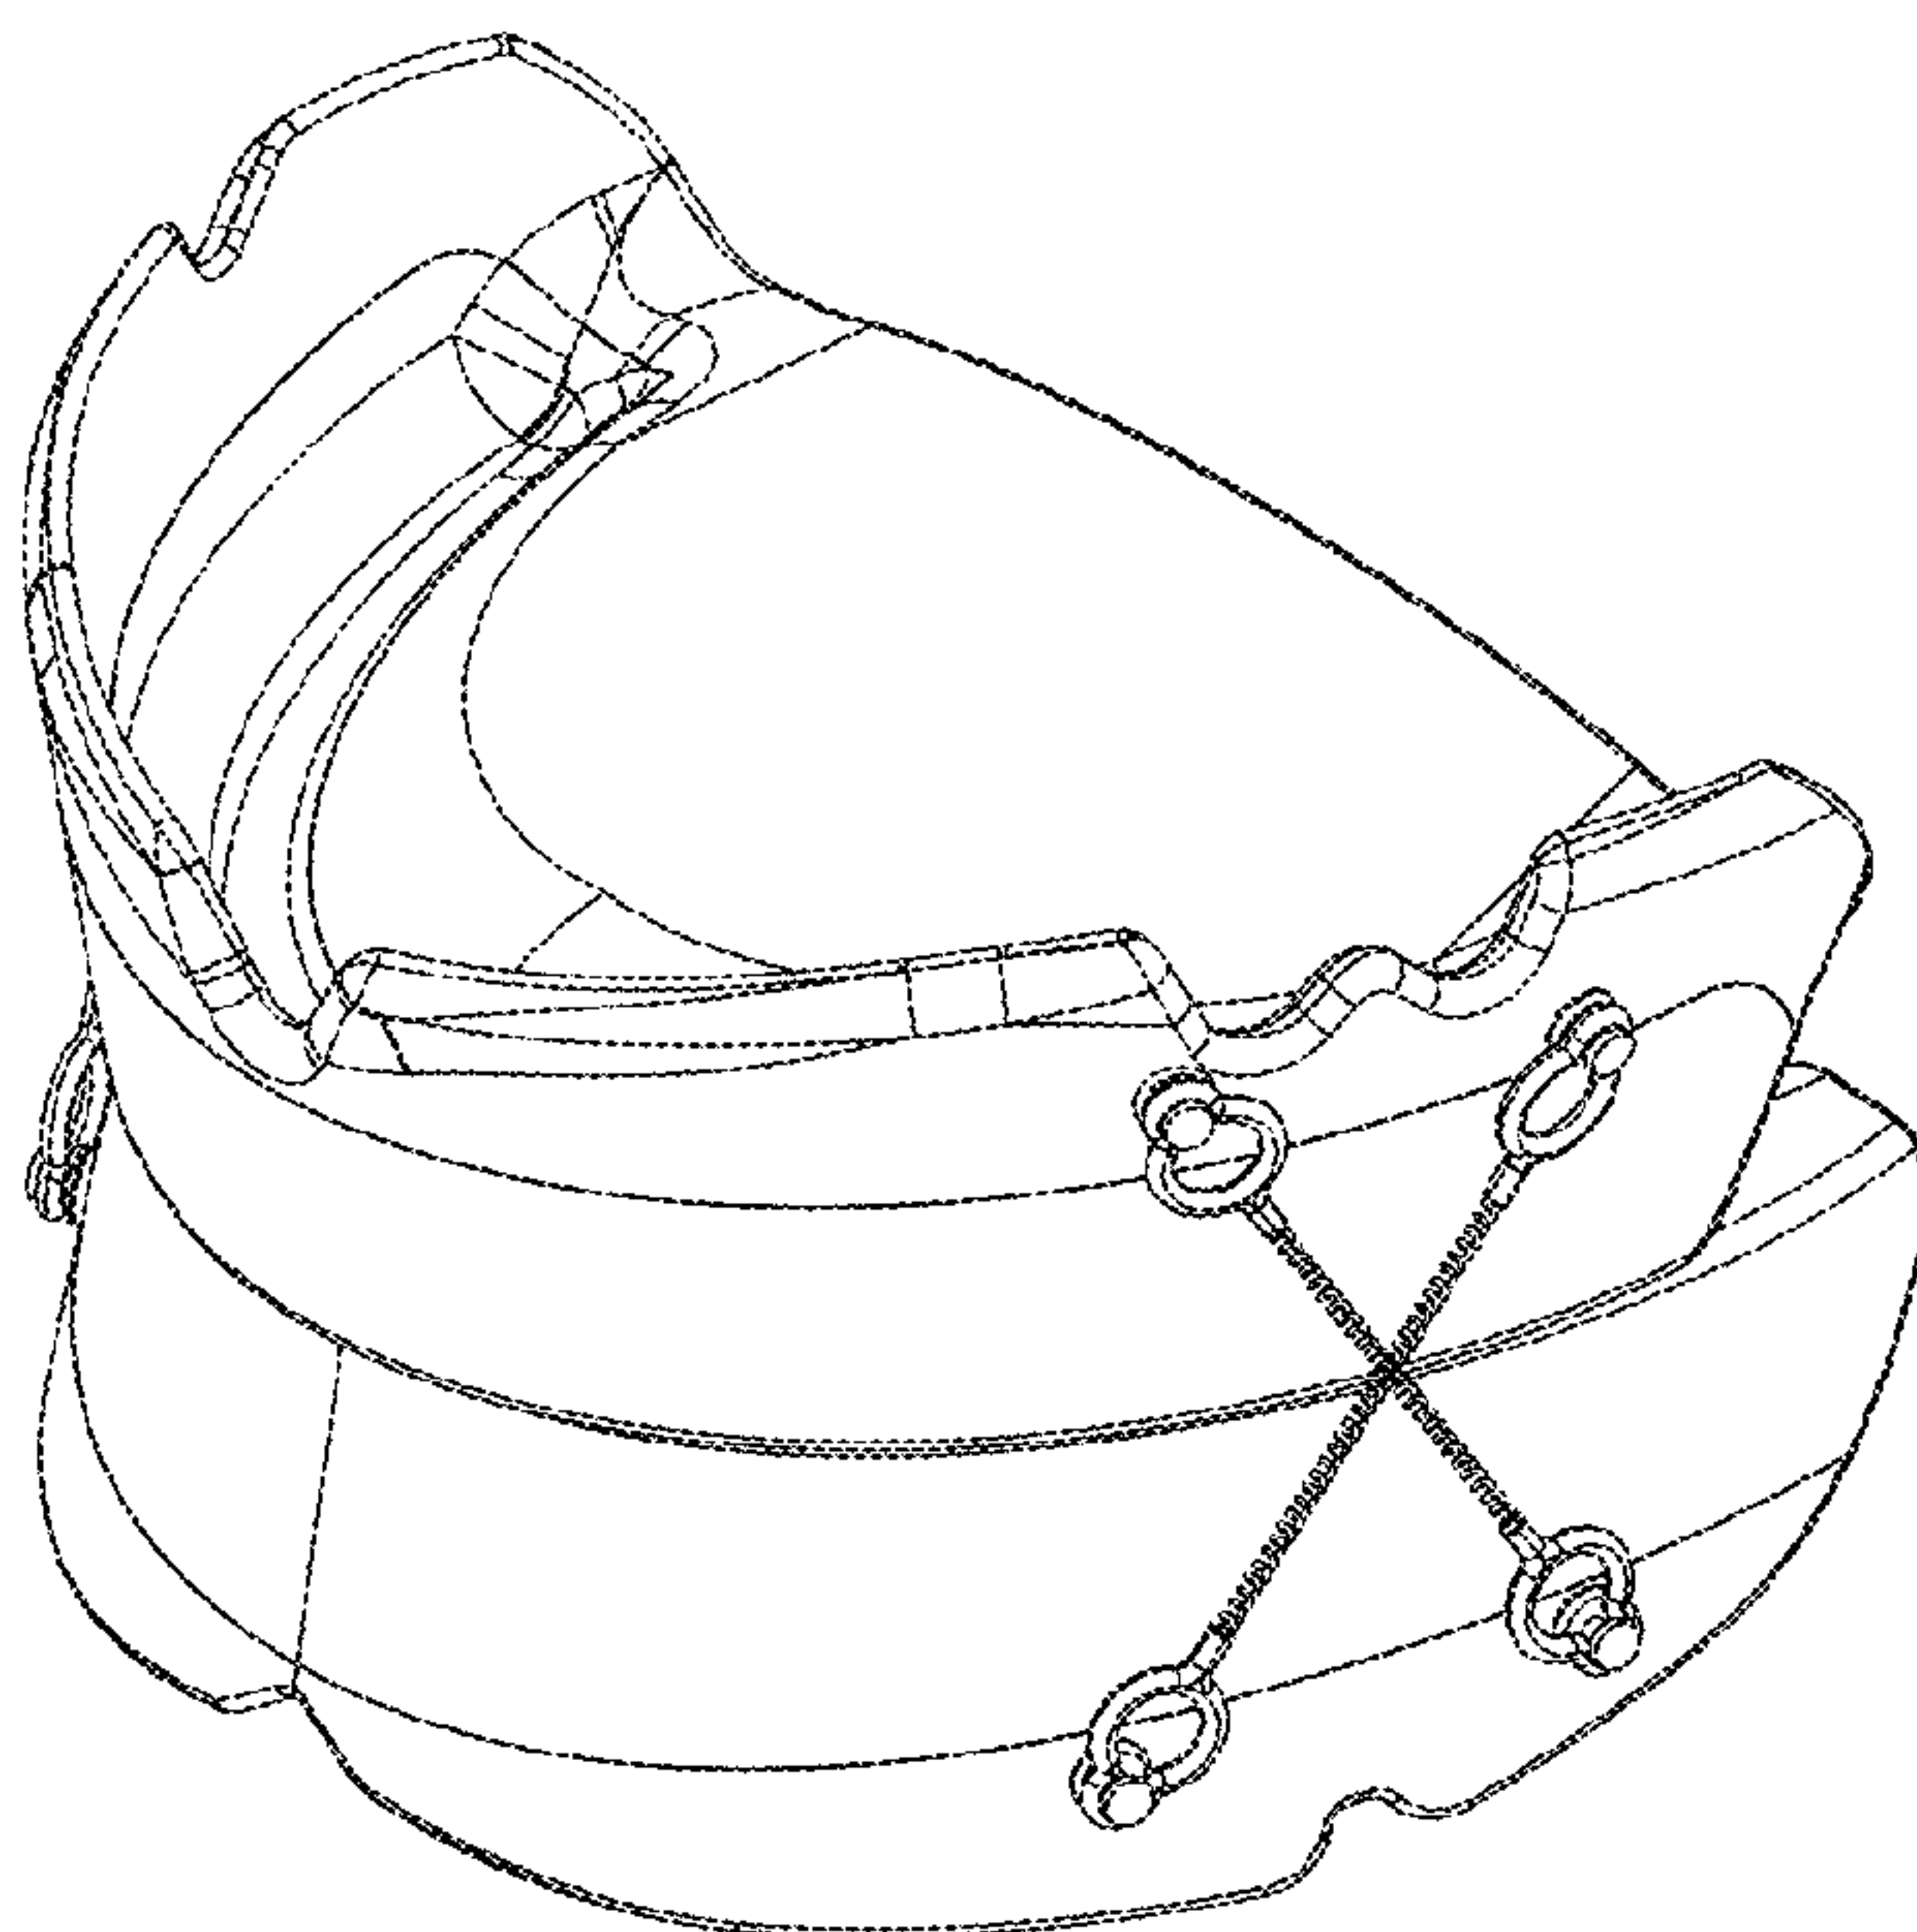

FIG. 12 a bottom, right-side perspective view of the upper member of centric relation self registering full denture oral appliance for direct mounting on laboratory articulator with the lower member removed for ease of illustration.

FIG. 13 is a top, left-side perspective view of the lower member of centric relation self registering full denture oral appliance for direct mounting on laboratory articulator with the upper member removed for ease of illustration; and,

FIG. 14 a bottom, right-side perspective view of the lower member of centric relation self registering full denture oral appliance for direct mounting on laboratory articulator with the upper member removed for ease of illustration.

The broken lines represent unclaimed subject matter and form no part of the claimed design.
